The Accountable Entity, MCA-Belize, has received financing from the Millennium Challenge Corporation toward the cost of the Education Project, which aims to equitably increase the number of post-primary graduates with the competencies relevant to labor market demand, and the Energy Project, which aims to lower the wholesale cost of electricity in real terms, and intends to apply part of the proceeds toward payments under the contract for the procurement of laptops – Chromebooks and wired mice.

MCC's funding is appropriated by the U.S. Congress and obligated to the compact up-front, with no incremental or partial funding. So, when a contract is signed with an Accountable Entity, money is already available to the Accountable Entity and, for most contracts, invoices are paid directly to Offerors by the US Treasury.

MCA-Belize now invites quotations from eligible Offerors for the procurement of 978 laptops–Chromebooks and 1,648 wired mice.

Bidding will be conducted through the Shopping procurement method as specified in the Accountable Entity MCC Procurement and Policy Guidelines (PPG) and is open to all eligible offerors as defined in the PPG.
